PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering graduate (2026) with hands-on professional experience as a Full Stack Developer, IoT Cloud Engineer, and Mobile Application Developer. Currently working at Power and Control Solution (PCS), developing industrial-grade IoT software integrating Modbus protocol, Teltonika routers, PLCs, HMIs, AWS EC2, and VPN infrastructure for real-time cloud monitoring and remote industrial control. Skilled in Flutter, Node.js, REST APIs, Firebase, AWS, and full stack web development. Experienced in cloud backend management, industrial communication protocols, and cross-platform mobile apps for LAN-based device control. Quick learner with strong analytical and problem-solving skills.

WORK EXPERIENCE

Software Developer – IoT & Cloud *July 2026 – Present*

Power and Control Solution (PCS) | Onsite

- Designed and developed an industrial IoT software platform to connect Teltonika routers with industrial-grade PLCs and HMIs using Modbus TCP/RTU protocol, enabling real-time data acquisition from field devices.
- Architected and managed cloud backend on AWS EC2, setting up server infrastructure, configuring VPN for secure private communication between cloud and on-site industrial equipment.
- Implemented real-time data pipeline to stream PLC sensor data to cloud dashboard, allowing remote online monitoring of industrial parameters including motor status, pump readings, and instrument telemetry.
- Developed a Flutter mobile application for LAN-based device control, enabling operators to connect to nearby PLCs and industrial devices over Modbus within the same network — supporting control of motors, pumps, and instruments.

Web Application Developer *January 2026 – July 2026 (Internship)*

KN Enterprises | Onsite

- Building a full-stack e-commerce web application with product listings, cart management, order processing, and customer management.
- Managing Meesho and Amazon seller accounts — product catalogues, inventory, order fulfillment, and account compliance.
- Handling end-to-end digital operations including order tracking and warehouse-to-delivery coordination.

Flutter Developer Intern *August 2025 – November 2025*

TerraBiz Tech Pvt Ltd | Remote

- Contributed to Ophiz (live on Google Play Store) using Flutter, Dart, and BLoC architecture; integrated REST APIs and optimized app performance.
- Collaborated with cross-functional teams using Git and GitHub; generated engineering documentation per module.

Web Developer Intern *June 2024 – July 2024*

Excellence Group of Institute | Onsite, Ludhiana, Punjab

- Built 3 responsive websites using HTML5, CSS3, JavaScript, and Node.js — increased user engagement by 40%, reduced bounce rate by 15%.

PROJECTS

TellMe – Anonymous Real-Time Chat Website | React, Node.js, WebSocket, Vercel *2025*

Live: https://tellme-frontend.vercel.app/dashboard

- Anonymous chat platform with auto-delete messaging, WebSocket real-time sync, zero data retention. Deployed on Vercel.

TellMe – Real-Time Chat Mobile App | Flutter, Firebase, Dart, Provider *2025*

- Cross-platform Flutter app with Firebase Auth, persistent history, FCM push notifications. Zero crash rate across 50+ active users on Android and iOS.

KOSHIS – College Event Management App | Flutter, Firebase, Provider *2024*

- Mobile app adopted by 200+ students — real-time notifications, event registration, reduced manual coordination by 60%.

EDUCATION

B.Tech – Computer Science and Engineering | PCTE Group of Institutes, Ludhiana *August 2022 – May 2026*

Coursework: Computer Networks, Operating Systems, DBMS, Software Engineering, Data Structures and Algorithms, OOP, Web Technologies

TECHNICAL SKILLS

IoT & Industrial: Modbus TCP/RTU, PLC Integration, HMI, Teltonika Routers, Industrial Automation, Real-Time Data Acquisition

Cloud & DevOps: AWS EC2, Cloud Backend Management, VPN Configuration, Server Provisioning, System Monitoring

Mobile Development: Flutter, Dart, Android, iOS, BLoC, Provider, LAN-Based Device Control, Cross-Platform Development

Frontend: HTML5, CSS3, JavaScript, React, Responsive Web Design, Material Design

Backend: Node.js, Express.js, RESTful API Development, WebSocket

Database & Cloud: Firebase Firestore, MongoDB, PostgreSQL, AWS
E-Commerce: Meesho Seller Management, Amazon Seller Central, Order & Catalogue Management
Tools & Version Control: Git, GitHub, VS Code, Postman, Vercel, Android Studio, Firebase Console
Soft Skills: Analytical Thinking, Problem Solving, Team Collaboration, Fast Learner, Cross-Functional Coordination
